

## EDUPOINT

### Attendance

EduPoint improves efficiency of attendance tracking and provides instant access to reliable attendance data for your whole team and for compliance reporting purposes

#### **Robust. Flexible. Manageable.**

EduPoint makes it easy to maintain accurate and up-to-date records of student attendance for compliance reporting or day-to-day management.

EduPoint lets you efficiently record attendance for an individual student or group with enough flexibility to meet the needs of your training and higher education institution.

Attendance rates are readily available and a range of built-in reports make it easy to monitor attendance issues and quickly identify inconsistencies.

#### **Flexibility**

EduPoint fits with the way you work; whether that means recording attendance daily, by session or only by exception, and the group view lets you mark all students in a group, in a single operation.

#### **Web-based**

As your team has access to EduPoint via the web anytime, anywhere; attendance can be recorded at your facilities, on the road, or on location in the workplace.

#### **Compliance**

EduPoint has been designed to help you efficiently meet all attendance compliance and record keeping requirements.

#### **Understanding**

The ability to integrate EduPoint with MS Office applications and Business Intelligence (BI) tools fosters better decision-making and allows an organisation to address attendance issues proactively.

Feature	Benefits
Web-based solution	<ul style="list-style-type: none"> <li>• Have the benefit of recording attendance either in the classroom or at the administration centre, giving the power to the people who need it the most</li> <li>• Experience the ability to see and report on student attendance, wherever you may be, as soon as the attendance is noted</li> <li>• Gives your staff the flexibility to record attendance whenever you need them to.</li> </ul>
Integrated to enrolment record	<ul style="list-style-type: none"> <li>• Records attendance directly against the units/subjects that the student is enrolled in</li> <li>• Be able to see attendance in respect to other enrolment information.</li> </ul>
Saves student attendance history	<ul style="list-style-type: none"> <li>• See and report on all of the attendance for the student in one page</li> <li>• See student's attendance percentages at a 'current' and 'overall' status on the student's attendance page.</li> </ul>
Recording presence or absence	<ul style="list-style-type: none"> <li>• Chose how you want to record 'attendance' based on the attendance history of a class</li> <li>• By recording absence, you assume the student is present</li> <li>• Eliminate the amount of data entry that is required by staff, saving them precious time.</li> </ul>
Attendance Reporting	<ul style="list-style-type: none"> <li>• Print Warning letters for those falling below your organisations attendance requirements</li> <li>• Be able to track attendance rates and pre-empt those students who are in jeopardy</li> <li>• Report on individual student attendance and groups of student's attendance.</li> </ul>

## EduPoint and UXC Eclipse

delivering intelligent solutions with old-fashioned service

Formerly eMinerva from MXL, EduPoint is the next generation of student management solutions. Built from the ground up, in Australia on 100% Microsoft technology, EduPoint is owned and implemented by UXC Eclipse. At UXC Eclipse our philosophy is simple. We deliver the right solution with the highest levels of service. This is part of our 'customer for life philosophy'. Once your solution is implemented, we maintain a strong on-going business relationship, with 24 x 7 support and a range of value - added services to ensure your EduPoint solution remains reliable and effective in your business.
